START • GROW • EXPAND • RECOVER

This presentation is developed to provide a general overview of the processes related to provisions in the Economic Aid to Hard-Hit Small Businesses, Nonprofits, and Venues Acts (the Economic Aid Act). The interest rates and term for this disaster loan are:

- 3.75% for small businesses
- 2.75% for nonprofit organizations
- The loan term is 30 years and there is no penalty for pre-payment

How can I use the loan funds?

- These EIDL (working capital) loans may be used to pay fixed debts, payroll, accounts payable, and other bills that could have been paid had the disaster not occurred
- These loans are not intended to replace lost sales or profits or for expansion

What is the collateral?

- There is no real estate collateral required
- A blanket UCC-1 will be filed against the business collateral for loans over \$25,000
- Personal guarantees are required for loans greater than \$200,000

Applicants can have an existing SBA Disaster Loan and still qualify for a COVID-related EIDL, but the loans cannot be consolidated

Repeal of EIDL Advance Deduction

- SBA will no longer deduct EIDL Advances from forgiveness payments remitted to PPP lenders. This change will be applied to SBA forgiveness payments with a status of “Payment Confirmed” dated December 29, 2020 or later.
- For those loans where SBA remitted a forgiveness payment to a PPP lender that was reduced by an EIDL Advance, SBA will automatically remit a reconciliation payment to the PPP lender for the previously-deducted EIDL Advance amount, plus interest through the remittance date.
- The PPP lender is responsible for notifying the borrower of the reconciliation payment.
- The PPP lender is also responsible for re-amortizing the loan and notifying the borrower of the amount of the next payment due or advising the borrower that the loan has been paid in full, whichever is applicable.
- If the amount remitted by SBA to the PPP lender exceeds the remaining principal balance of the PPP loan (because the borrower made a payment on the loan), the PPP lender must remit the excess amount, including accrued interest paid by the borrower, to the borrower.
